(Coauthors: Senators Liu and Romero)

February 23, 2009

An act to ~~amend Section 52052.5 of~~ *add Section 52052.51 to the Education Code*, relating to the Public Schools Accountability Act of 1999.

LEGISLATIVE COUNSEL'S DIGEST

AB 429, as amended, Brownley. The Public Schools Accountability Act of 1999: advisory committee.

Existing law requires the Superintendent of Public Instruction to establish an advisory committee to advise on all appropriate matters relative to the creation of the Academic Performance Index and the implementation of the Immediate Intervention/Underperforming Schools Program and the High Achieving/Improving Schools Program. Existing law requires the committee to make recommendations to the Superintendent on the appropriateness and feasibility of a methodology for generating a measurement of academic performance by using unique pupil identifiers and annual academic achievement growth to provide a more accurate measure of a school's academic achievement growth over time.

~~This bill would require the committee, by July 1, 2011, to make recommendations to the Superintendent for the establishment of a methodology for generating a measurement of academic performance using unique pupil identifiers and for developing a longitudinally valid assessment system in which annual academic growth can provide a more accurate and valid measure of a school's academic achievement growth and a pupil's academic achievement growth over time. This bill would require the Superintendent to forward the recommendations by October 1, 2011, to specified entities.~~

~~This bill would provide that specific provisions of the bill would not be implemented unless and until funds are appropriated by the Legislature in the annual Budget Act or another statute.~~

This bill would state the intent of the Legislature that the advisory committee make recommendations for generating a measurement of academic performance that can provide a more accurate and valid measure of a pupil's academic achievement growth over time and use a specified pilot study in making recommendations, and that the Superintendent forward recommendations containing a cost estimate and timeline for implementation to various state entities. The bill would further state the intent of the Legislature that recommendations to develop a longitudinally valid assessment system not be implemented unless and until funds are specifically appropriated for that purpose.

Vote: majority. Appropriation: no. Fiscal committee: ~~yes-no~~. State-mandated local program: no.
